

The Official Opening of Nippon Pigment's newest factory

Nippon Pigment (M) Sdn. Bhd. (NPM), Shah Alam is a subsidiary of Nippon Pigment Co. Ltd. Japan, one of the world's leading manufacturers of plastic colour compounds and masterbatch for a wide range of industrial applications. The parent company has factories all over the world, in USA, Singapore, Korea and Malaysia.

Established in 1991, NPM is equipped with highly sophisticated machines producing quality plastic colour compounds, masterbatch and dry colour mainly for the Malaysian based electronic industry. Combining both Japanese technology transfer and highly trained workers, NPM strongly

emphasizes on quality and its products are produced under stringent quality control procedures. All this is done to ensure customer satisfaction.

With the establishment of this new factory in Shah Alam, and combined with the output of its sister factories in Singapore and Penang, Nippon Pigment Co. Ltd. Japan will be the largest manufacturer of plastic colour compounds in South East Asia.

With the opening of this new factory, the second in Malaysia, Nippon Pigment Co. Ltd. Japan hopes to contribute to the growth and development of the country in her quest to become an industrialised nation by 2020.
